

PROMYS India

Program in Mathematics for Young Scientists

Professor Ila Varma, Director

Professor Aditya Karnataki, Associate Director

Counsellor Opportunity for Undergraduate Mathematics Majors

Residential mathematical immersion at the Indian Institute of Science (IISc) Bangalore

9 May-21 June 2025

An intensive summer programme for mathematically talented secondary school students, **PROMYS India is also designed for the mathematical development of its counsellors.**

- Immerse yourself for six weeks in challenging and collaborative mathematics.
- Act as a mathematical mentor and role model, supervising the work of 3 or 4 secondary school students.
- Take advanced seminars and engage in mentored research on a variety of mathematical topics.
- Advance your mathematical learning through counsellor-led seminars and minicourses.
- PROMYS creates an inspiring mathematical community of secondary school students, undergraduate counsellors, faculty, research mentors, visiting mathematicians and guest lecturers.
- Modelled on 36-year-old PROMYS program at Boston University in the U.S. where 76% of counselor alumni go on to earn a doctorate of which 81% are PhDs in mathematics.

Counsellors receive a 6-week stipend of Rs 84,000 + free hostel & meals + approved travel

APPLICATION: promys-india.org Apply by 31st December 2024

"If you love teaching or love maths and want to see the best possible way maths can be taught, you should definitely join here as a counsellor." Nikhil Nagaria, counsellor at PROMYS India 2024
